

## CONFERENCES AND SEMINARS

# Prof. Dan M. Frangopol

Dr. Dan M. Frangopol is the first holder of the Fazlur R. Khan Endowed Chair of Structural Engineering and Architecture at Lehigh University, Bethlehem, Pennsylvania. Before joining Lehigh University in 2006, he was Professor of Civil Engineering at the University of Colorado at Boulder where he is now Professor Emeritus. Dr. Frangopol's main research interests are in the application of probabilistic concepts and methods to civil and marine engineering including structural reliability, probability-based design and optimization of buildings, bridges and naval ships, structural health monitoring, life-cycle performance maintenance and management of structures and infrastructures under uncertainty, risk-based assessment and decision making, infrastructure sustainability and resilience to disasters, and stochastic mechanics.

**SEMINAR: Brief Overview of the Past and Present Research on Life-Cycle Reliability and Optimization Structures at Lehigh University. May 5<sup>th</sup>, 11:00-12:00. ICITECH**

---

**CONFERENCE: Reliability-Based Life-Cycle Maintenance, Rehabilitation and Management of Bridges. May 10<sup>th</sup>, 17:00-18:00. School of Civil Engineering**

---

**CONFERENCE: Life-Cycle Performance of Aging Structures Considering Reliability, Risk and Resilience. May 16<sup>th</sup>, 18:15-19:15, Classroom Depart. Construction Engineering**

---

**CONFERENCE: Risk-based Assessment and Decision Making under Uncertainty in a Life-Cycle Perspective. May 17<sup>th</sup>, 17:15-18:15. Classroom C3**

**UNIVERSITAT POLITÈCNICA DE VALÈNCIA**

Department of Construction Engineering  
Camino de Vera, s/n  
46022 Valencia

FREE ENTRY
