To: José Esteban Capilla Romá
Rector of Polytechnical University of Valencia

Dear Distinguished Colleague,

As you may know, cooperation between Batumi Shota Rustaveli State University (BSU) and Polytechnical University of Valencia (UPV) has been actively taking place within the framework of ERASMUS programs, which includes mobility of student and staff, participation in scientific research endeavors and other activities, for which we would like to express our gratitude to you and your institution (UPV).

In 2015, the Dean of the Technological Faculty of BSU Prof. Gaioz Partskhaladze, was at the Polytechnic University of Valencia, with an exchange program, within the framework of ELECTRA of ERASMUS MUNDUS. One of the goals of the mobility was to work in the scientific research group and to hold lectures at UPV, and to participate in other activities. The scientific leader of the group from your university was the head of the Civil Engineering Department Prof. Victor Yepes Piqueras, while the member of the group was the deputy dean of the Faculty of Civil Engineering. Prof. Julian Alcalá Gonzalez.

After that we had another opportunity to collaborate within the frames of the Erasmus + CBHE project in 2017-2020 as part of the ERASMUS+ InnoCENS project.

It is also notable that in 2016 a memorandum of agreement was signed between our universities. In the case of your content, we would like to extend the agreement and continue cooperation with UPV.

Once again, we would like to express our gratitude to you and your institution - UPV, and we do hope that soon we will be able to successfully continue our collaboration.

Sincerely,

Merab Khalvashi
Rector, Professor
